Dedicated second-year computer science student that is very passionate about the IT sector and wants to focus on front-end development and UI/UX design. knowledgeable in Figma, keen on detail, and has a track record of accomplishment in collaborative situations. an adept of front-end development possessing solid skills in HTML, CSS, JavaScript, and React Native. committed to improving my skills in design and development so that I can help create unique, fluid online experiences

SKILLS

- HTML/CSS
- UI/UX Designing
- React Native
- Wireframing
- JavaScript
- Python
- Microsoft office
- Java Programming
- MongoDB

LANGUAGES

- English | advanced
- Sinhala | Native

EDUCATION

BSC(HONS) IN COMPUTER SCIENCE

2023 - Present

Informatics Institute of Technology
| London, United Kingdom, Affiliated in Colombo, Sri Lanka

Prominent Modules:

Object Oriented Programming received a total mark of 73

Database System received a mark of 72

HCI & User Experience received a total mark of 71

Software Development Group Project received a total mark of 59

Server-Side Web Development marks pending

Client Server Architecture marks pending

FOUNDATION CERTIFICATE IN COMPUTING

2022 - 2023

Informatics Institute of Technology | Colombo, Sri Lanka

Nakano College | Bandaragama, Sri Lanka

Primary and High School

O/L Results : 2As, 2Bs, 4Cs and 1Ss.

PROJECTS

Burger Queue Management System - Software Development II Project (2022)

- Developed a Java Queue management system that tracks burger stock, uses file operations to save and retrieve data, sorts of names alphabetically, and manages customers using arrays and classes

Online Shopping System - Object Oriented Programming (2023)

- A console interface for smooth product manipulation and OOP concepts for effective management make up this online shopping system.

Vehicle Repairo mobile and web application - Software Development Group Project

- This is a group project which we created a web and mobile application was part of the project. React Native and React Js were used for frontend development, and Python was used for backend.

FOODIESPOT recipe app design - HCI & User Experience (2023)

- Using a finely built high-fidelity prototype in Figma, this project showcases UI/UX design concepts, accessibility considerations, customization tools, and an integrated approach to user involvement in the culinary sector

Sugar Rush Cake Website Design

- Using a finely built high-fidelity prototype in Figma, this project showcases UI/UX design concepts, accessibility considerations, customization tools, expertise in creating an engaging and user-centric experience for a cake cupcake ordering website.

Burger Ordering App Design

- Using a finely built high-fidelity prototype in Figma, this project showcases UI/UX design concepts, accessibility considerations, customization tools, expertise in creating an engaging and user-centric experience for a burger ordering app.

Portfolio (2024)

- A portfolio was created to showcase all of my projects.

EXPERIENCE AND VOLUNTEERING

- Senior Prefect in Nakano College (2019 - 2021)
- Member of School Eastern band (2019 - 2021)
- Member of Leo club, IEEE club, and Mozilla club of IIT (2022 - present)
- Participated in CODESPRINT 8 (2024)
- Participated in MORA UXPLORE 2.0 (2024)
- Volunteering in HI5 Project organized by Leo Club of IIT (2021)
